Summary

Software Engineering student pursuing a Higher National Diploma (HND) in Computing at ESOF Metro Campus. Skilled in frontend and backend web development using React.js, Next.js, JavaScript, TypeScript, and NestJS. Experienced in developing academic and personal projects, with a strong foundation in software development, problem-solving, and object-oriented programming. Passionate about building scalable applications, learning modern technologies, and contributing to real-world software engineering projects.

Education

ESOF Metro Campus

Reading

Higher National Diploma (HND) in Computing

ESOF Metro Campus

June 2024 - Feb 2025

Diploma in Information and Communication Technology

Technical Skills

Programming Languages: JavaScript, TypeScript, python

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: NestJS

Database: MySQL, MongoDB

Version Control: Git, GitHub

Development Tools: Visual Studio Code, Visual Studio, Figma

Projects

SkinSense AI — Skin Analysis Platform [[GitHub](#)]

May 2026

- Developed a Python-powered intelligent skin analysis and reporting assistant utilizing advanced AI frameworks.
- Implemented structural logic to evaluate inputs and dynamically generate comprehensive PDF analysis reports (`pdf\_report.py`).
- Built an interactive interface to streamline user image/input uploads and view data-driven skin health summaries seamlessly.

Personal Portfolio Website [[GitHub](#)] | [[Live](#)]

Dec 2025

- Developed a personal portfolio website to showcase frontend projects and technical skills.
- Designed the user interface using Figma and implemented it using modern CSS practices.
- Implemented Server-Side Rendering (SSR) for improved performance and SEO.

Modern Weather App [[GitHub](#)]

Nov 2025

- Integrated public weather APIs to fetch and display real-time weather data dynamically.
- Implemented a fully responsive user interface utilizing a structured, component-based architecture.

Food Delivery Web App [GitHub]*Jan 2026*

- Developed a highly responsive food delivery web application using HTML, CSS, and JavaScript.
- Implemented complex client-side functionalities including an interactive menu, dynamic cart management, and order summary calculations.

Christmas Animation Web App [GitHub]*Dec 2025*

- Created an engaging, animated web interface integrated with music interaction and immersive visual effects.
- Practiced clean, reusable component design patterns and advanced animation techniques.
